(b) SPECIAL PERMITS AND LICENSES

37-447 Permit to hunt deer; commission; powers; issuance; fee; violation; penalty.

(1) The commission may issue permits for the hunting of deer and adopt and promulgate rules and regulations and pass commission orders pursuant to section 37-314 to prescribe limitations for the hunting, transportation, and

possession of deer. The commission may offer multiple-year permits or combinations of permits at reduced rates. The commission may specify by rule and regulation the information to be required on applications for such permits. Rules and regulations for the hunting, transportation, and possession of deer may include, but not be limited to, rules and regulations as to the type, caliber, and other specifications of firearms and ammunition used and specifications for bows and arrows used. Such rules and regulations may further specify and limit the method of hunting deer and may provide for dividing the state into management units or areas, and the commission may enact different deer hunting regulations for the different management units pertaining to sex, species, and age of the deer hunted.

(2) The number of such permits may be limited as provided by the rules and regulations of the commission, and except as provided in section 37-454, the permits shall be allocated in an impartial manner. Whenever the commission deems it advisable to limit the number of permits issued for any or all management units, the commission shall, by rules and regulations, determine eligibility to obtain such permits. In establishing eligibility, the commission may give preference to persons who did not receive a permit or a specified type of permit during the previous year or years.

(3) Such permits may be issued to allow deer hunting in the Nebraska National Forest and other game reserves and such other areas as the commission may designate whenever the commission deems that permitting such hunting will not be detrimental to the proper preservation of wildlife in Nebraska in such forest, reserves, or areas.

(4)(a) The commission may, pursuant to section 37-327, establish and charge a nonrefundable application fee of not more than seven dollars for deer permits in those management units awarded on the basis of a random drawing. The commission shall, pursuant to section 37-327, establish and charge a fee of not more than thirty-nine dollars for residents and not more than two hundred eighty-four dollars for nonresidents for each permit issued under this section except as otherwise provided in subdivision (b) of this subsection and subsection (6) of this section.

(b) The fee for a statewide buck-only permit limited to white-tailed deer shall be no more than two and one-half times the amount of a regular deer permit. The fee for a statewide buck-only deer permit that allows harvest of mule deer shall be no more than five times the amount of a regular deer permit.

(5)(a) The commission may issue nonresident permits after preference has been given for the issuance of resident permits as provided in rules and regulations adopted and promulgated by the commission.

(b) In management units specified by the commission, the commission may issue nonresident permits after resident preference has been provided by allocating at least eighty-five percent of the available permits to residents. The commission may require a predetermined application period for permit applications in specified management units. Such permits shall be issued after a reasonable period for making application, as established by the commission, has expired. When more valid applications are received for a designated management unit than there are permits available, such permits shall be allocated on the basis of a random drawing. All valid applications received during the predetermined application period shall be considered equally in any

such random drawing without regard to time of receipt of such applications by the commission.

(6) The commission shall, pursuant to section 37-327, establish and charge a fee of not more than twenty-five dollars for residents and not more than forty-five dollars for nonresidents for a youth deer permit.

(7) Any person violating the rules and regulations adopted and promulgated or commission orders passed pursuant to this section shall be guilty of a Class II misdemeanor and shall be fined at least one hundred dollars upon conviction.

(a) RESERVES AND SANCTUARIES

37-701 Reserves, refuges, and sanctuaries; how established; acquisition of land.

When a notice is posted on each corner and on all roads leading thereinto, indicating that such property is a reserve, refuge, or sanctuary, every school section and other tract of educational land within the state, title to which is vested in the State of Nebraska, all that portion of the State of Nebraska embraced within the boundaries of the Niobrara and Bessey divisions of the Nebraska National Forest, and every state-owned lake, pond, or marsh, except lakes and marshes state owned because meandered, is hereby declared to be a game reserve, bird refuge, and wild fowl sanctuary. Other game reserves, bird refuges, wild fowl sanctuaries, or reservations may be established by the commission in any county where deemed necessary for the protection and propagation of game, or as a refuge or sanctuary for song and insectivorous birds or wild fowl. The commission with the approval of the Governor may acquire land for such purposes, either by purchase, lease, gift, or other devise.

37-702 Sanctuaries on rivers; how established; discontinuance; procedure.

When the owners in freehold of both banks of any river in Nebraska for a distance of five miles or more along the river sign a petition to the commission requesting that such river along their lands and on lands adjacent to the river and within one-half mile thereof be made a game and wild fowl sanctuary, the commission upon receiving the promises in writing of such owners to refrain from all shooting or molesting of game upon such proposed sanctuary and further, to the best of their ability, to prevent others from shooting or molesting game thereon may accept such area as a game and wild fowl sanctuary and cause the same to be plainly posted as such and to be protected from violators.

The commission may further expend reasonable sums to feed wild fowl upon such sanctuaries. A sanctuary so established may not, without the consent of the commission, be withdrawn by the owners for a period of five years after it is established, and unless the owners of more than one-half of the river banks on both sides of the river running through any such sanctuary sign a petition for vacating the same and file such petition with the commission during the first half of the fifth year of such sanctuary or thereafter in the first half of the fifth year of any added five-year period, such sanctuary shall continue as such unless terminated for good cause by the commission.

37-704 Sanctuaries; rules and regulations; Missouri River sanctuaries; power of commission.

The commission may adopt and promulgate such rules and regulations for the protection of game or wild fowl sanctuaries as it may find necessary to protect game, wild fowl, or song birds thereon or to make effective rules and regulations in conjunction with other states over the Missouri River for the protection of wild fowl thereon and fish therein. For purposes of sections 37-714 to 37-721:

(1) Natural area means an area of land or water, whether publicly or privately owned, which retains to some degree its primeval character, though it need not be completely natural and undisturbed, or has natural flora, fauna, or ecological features of scientific or educational interest;

(2) Participating cooperators means any nonprofit conservation organizations or public agencies which enter into agreements pursuant to section 37-718; and

37-715 Legislative findings.

The Legislature hereby finds and declares that the protection of natural diversity promotes the quality of life for Nebraska residents and their descendants and the protection of natural areas maintains species and their genetic diversity for economic development and human benefit. The Legislature further finds and declares that specific knowledge of the status and location of natural heritage resources and their recognition can prevent needless conflict with economic development and voluntary cooperation of landowners is an effective and cost-efficient means to protect significant natural resources.

37-716 Nebraska Natural Areas Register; created; registration; criteria.

(1) The commission shall create and maintain a state register of those natural areas which possess significant natural heritage resources which shall be known as the Nebraska Natural Areas Register. The commission shall adopt and promulgate policies, rules, and regulations to carry out the registration of natural areas. (c) The natural area shall support a relict flora or fauna persisting from an earlier period; or

(d) The natural area shall serve as a seasonal haven for concentrations of birds or other animals.

(2) Natural areas which are candidates for inclusion in the register shall be identified by the commission based on available evidence and standards prescribed by the commission. After completing the review, the sites may be nominated for inclusion in the register and submitted with nomination documents for consideration by the commission. Nomination of natural areas for inclusion in the register shall be based on one or more of the following priorities:

(a) Rareness of the natural heritage features on a national, statewide, or ecological region scale;

(b) Excellence and completeness of the natural heritage features found in the natural area;

No entity of local or state government may undertake any activities or use the registered natural area in any way that would negatively impact the values of the natural area without first conducting a public hearing on such negative impact and filing with the secretary of the commission a statement justifying the negative impact on the natural area of such activities or use.

A city park which provides camping, picnic, and sports facilities is a recreational facility within the meaning of the act. *Garreans v. City of Omaha*, 216 Neb. 487, 345 N.W.2d 309 (1984).

The term "owner," as used in the Recreation Liability Act, sections 37-1001 et seq., includes a political subdivision as well as a private person. The term "recreational purposes," as used in the Recreation Liability Act, sections 37-1001 et seq., is broad enough to include the normal activities afforded by public parks. *Watson v. 37-730 Limitation of liability; purpose of sections.

The purpose of sections 37-729 to 37-736 is to encourage owners of land to make available to the public land and water areas for recreational purposes by limiting their liability toward persons entering thereon and toward persons who may be injured or otherwise damaged by the acts or omissions of persons entering thereon.

Source: Laws 1965, c. 193, § 1, p. 589; R.S.1943, (1993), § 37-1001; Laws 1998, LB 922, § 344.

The purpose of the Recreation Liability Act is to encourage owners of land to make available to the public land and water areas for recreational purposes by limiting their liability toward persons entering thereon and toward persons who may be injured or otherwise damaged by the acts or omissions of persons entering thereon. The Legislature did not intend for a court to look to the subjective intent of an injured plaintiff in using public land to determine whether or not the Recreation Liability Act would bar an action. *Veskerna v. City of West Point*, 254 Neb. 540, 578 N.W.2d 25 (1998).

Provisions of Recreation Liability Act apply to urban as well as rural areas. 37-731 Landowner; duty of care.

Subject to section 37-734, an owner of land owes no duty of care to keep the premises safe for entry or use by others for recreational purposes or to give any warning of a dangerous condition, use, structure, or activity on such premises to persons entering for such purposes.

Source: Laws 1965, c. 193, § 2, p. 589; R.S.1943, (1993), § 37-1002; Laws 1998, LB 922, § 345.

No duty of reasonable care will be judicially imposed where Legislature has decided there shall be no duty to keep premises safe. *Thies v. City of Omaha*, 225 Neb. 817, 408 N.W.2d 306 (1987).

Owner owes no duty of care to keep premises safe except for willful or malicious failure to guard or warn, and where owner

charges a fee for entry as provided by section 37-1005. *Thies v. City of Omaha*, 225 Neb. 817, 408 N.W.2d 306 (1987).

A city park which provides camping, picnic, and sports facilities is a recreational facility within the meaning of the act. *Garreans v. City of Omaha*, 216 Neb. 487, 345 N.W.2d 309 (1984).

37-732 Landowner; invitee; permittee; liability; limitation.

Subject to section 37-734, an owner of land who either directly or indirectly invites or permits without charge any person to use such property for recre-

ational purposes does not thereby (1) extend any assurance that the premises are safe for any purpose, (2) confer upon such persons the legal status of an invitee or licensee to whom a duty of care is owed, or (3) assume responsibility for or incur liability for any injury to person or property caused by an act or omission of such persons.

Evidence required a finding that the entire area owned by the defendant was covered by act and had been made available, directly or indirectly, to the plaintiff. *Gallagher v. Omaha Public Power Dist.*, 225 Neb. 354, 405 N.W.2d 571 (1987).

37-733 Land leased to state; duty of landowner.

Unless otherwise agreed in writing, an owner of land leased to the state for recreational purposes owes no duty of care to keep that land safe for entry or use by others or to give warning to persons entering or going upon such land of any hazardous conditions, uses, structures, or activities thereon. An owner who leases land to the state for recreational purposes shall not by giving such lease (1) extend any assurance to any person using the land that the premises are safe for any purpose, (2) confer upon such persons the legal status of an invitee or licensee to whom a duty of care is owed, or (3) assume responsibility for or incur liability for any injury to person or property caused by an act or omission of a person who enters upon the leased land. The provisions of this section shall apply whether the person entering upon the leased land is an invitee, licensee, trespasser, or otherwise.

37-734 Landowner; liability.

Nothing in sections 37-729 to 37-736 limits in any way any liability which otherwise exists (1) for willful or malicious failure to guard or warn against a dangerous condition, use, structure, or activity or (2) for injury suffered in any case where the owner of land charges the person or persons who enter or go on the land.

A finding that an owner of property protected by this act did not act willfully or maliciously as described in this section is a

finding of fact which will not be disturbed unless clearly wrong. *Thies v. City of Omaha*, 225 Neb. 817, 408 N.W.2d 306 (1987).

In order for action to be willful or wanton, the evidence must show that one acted with actual knowledge that a danger existed and that he intentionally failed to act to prevent the harm which was reasonably likely to result. *Gallagher v. Omaha Public Power Dist.*, 225 Neb. 354, 405 N.W.2d 571 (1987).

37-735 Sections, how construed.

Nothing in sections 37-729 to 37-736 creates a duty of care or ground of liability for injury to person or property.

Because the Recreation Liability Act is in derogation of common law, the act is to be strictly construed. *Dykes v. Scotts Bluff Cty. Ag. Socy., Inc.*, 260 Neb. 375, 617 N.W.2d 817 (2000).

37-736 Obligation of person entering upon and using land.

37-803 Legislative intent.

The Legislature finds and declares:

(1) That it is the policy of this state to conserve species of wildlife for human enjoyment, for scientific purposes, and to insure their perpetuation as viable components of their ecosystems;

(2) That species of wildlife and wild plants normally occurring within this state which may be found to be threatened or endangered within this state shall be accorded such protection as is necessary to maintain and enhance their numbers;

(3) That this state shall assist in the protection of species of wildlife and wild plants which are determined to be threatened or endangered elsewhere pursuant to the Endangered Species Act by prohibiting the taking, possession, transportation, exportation from this state, processing, sale or offer for sale, or shipment within this state of such endangered species and by carefully regulating such activities with regard to such threatened species. Exceptions to such prohibitions, for the purpose of enhancing the conservation of such species, may be permitted as set forth in the Nongame and Endangered Species Conservation Act; and

(4) That any funding for the conservation of nongame, threatened, and endangered species shall be made available to the commission from General Fund appropriations, the Wildlife Conservation Fund, or other sources of revenue not deposited in the State Game Fund.

37-804 Legislative declarations.

The Legislature hereby declares that nongame, threatened, and endangered species have need of special protection and that it is in the public interest to preserve, protect, perpetuate, and enhance such species of this state through preservation of a satisfactory environment and an ecological balance. The purpose of section 37-811 and section 77-27,119.01 is to provide a means by which such protection may be financed through a voluntary checkoff designation on state income tax return forms. The intent of the Legislature is that the program of income tax checkoff is supplemental to any funding and in no way

is intended to take the place of the funding that would otherwise be appropriated for such purpose.

37-805 Commission; develop conservation programs; unlawful acts.

(1) The commission shall conduct investigations of nongame wildlife in order to develop information relating to population, distribution, habitat needs, limiting factors, and other biological and ecological data to determine conservation measures necessary to enable such nongame wildlife to sustain itself successfully. On the basis of such determinations the commission shall develop a list of nongame wildlife in need of conservation, issue proposed regulations not later than two years from August 24, 1975, and develop conservation programs designed to insure the continued ability of nongame wildlife in need of conservation to perpetuate itself successfully. The commission shall conduct continuing investigations of nongame wildlife.

(2) The commission shall establish such proposed limitations relating to the taking, possession, transportation, exportation from this state, processing, sale or offer for sale, or shipment as may be necessary to conserve such nongame wildlife.

(3) Except as provided in regulations issued by the commission, it shall be unlawful for any person to take, possess, transport, export, process, sell or offer for sale, or ship nongame wildlife in need of conservation pursuant to this section. Subject to the same exception, it shall further be unlawful for any person, other than a common or contract motor carrier under the jurisdiction of the Public Service Commission or the Interstate Commerce Commission knowingly to transport, ship, or receive for shipment nongame wildlife in need of conservation pursuant to this section.

The commission may determine that any such threatened species is an endangered species throughout all or any portion of the range of such species within this state.

(2) In addition to the species determined to be endangered or threatened pursuant to the Endangered Species Act, the commission shall by regulation determine whether any species of wildlife or wild plants normally occurring within this state is an endangered or threatened species as a result of any of the following factors:

(a) The present or threatened destruction, modification, or curtailment of its habitat or range;

(b) Overutilization for commercial, sporting, scientific, educational, or other purposes;

(c) Disease or predation;

(d) The inadequacy of existing regulatory mechanisms; or

(e) Other natural or manmade factors affecting its continued existence within this state.

(3)(a) The commission shall make determinations required by subsection (2) of this section on the basis of the best scientific, commercial, and other data available to the commission.

(b) Except with respect to species of wildlife or wild plants determined to be endangered or threatened species under subsection (1) of this section, the commission may not add a species to nor remove a species from any list published pursuant to subsection (5) of this section unless the commission has first:

(i) Provided public notice of such proposed action by publication in a newspaper of general circulation in each county in that portion of the subject species' range in which it is endangered or threatened or, if the subject species' range extends over more than five counties, in a newspaper of statewide circulation distributed in the county;

(ii) Provided notice of such proposed action to and allowed comment from the Department of Agriculture, the Department of Environmental Quality, and the Department of Natural Resources;

(iii) Provided notice of such proposed action to and allowed comment from each natural resources district and public power district located in that portion of the subject species' range in which it is endangered or threatened;

(iv) Notified the Governor of any state sharing a common border with this state, in which the subject species is known to occur, that such action is being proposed;

(v) Allowed at least sixty days following publication for comment from the public and other interested parties;

(vi) Held at least one public hearing on such proposed action in each game and parks commissioner district of the subject species' range in which it is endangered or threatened;

(vii) Submitted the scientific, commercial, and other data which is the basis of the proposed action to scientists or experts outside and independent of the commission for peer review of the data and conclusions. If the commission submits the data to a state or federal fish and wildlife agency for peer review, the commission shall also submit the data to scientists or experts not affiliated with such an agency for review. For purposes of this section, state fish and wildlife agency does not include a postsecondary educational institution; and

(viii) For species proposed to be added under this subsection but not for species proposed to be removed under this subsection, developed an outline of the potential impacts, requirements, or regulations that may be placed on private landowners, or other persons who hold state-recognized property rights on behalf of themselves or others, as a result of the listing of the species or the development of a proposed program for the conservation of the species as required in subsection (1) of section 37-807.

The inadvertent failure to provide notice as required by subdivision (3)(b) of this section shall not prohibit the listing of a species and shall not be deemed to be a violation of the Administrative Procedure Act or the Nongame and Endangered Species Conservation Act.

(c) When the commission is proposing to add or remove a species under this subsection, public notice under subdivision (3)(b)(i) of this section shall include, but not be limited to, (i) the species proposed to be listed and a description of that portion of its range in which the species is endangered or threatened, (ii) a declaration that the commission submitted the data which is the basis for the listing for peer review and developed an outline if required under subdivision (b)(viii) of this subsection, and (iii) a declaration of the availability of the peer review, including an explanation of any changes or modifications the commission has made to its proposal as a result of the peer review, and the outline required under subdivision (b)(viii) of this subsection, if applicable, for public examination.

(d) In cases when the commission determines that an emergency situation exists involving the continued existence of such species as a viable component of the wild fauna or flora of the state, the commission may add species to such lists after having first published a public notice that such an emergency situation exists together with a summary of facts which support such determination.

(4) In determining whether any species of wildlife or wild plants is an endangered or threatened species, the commission shall take into consideration those actions being carried out by the federal government, by other states, by other agencies of this state or political subdivisions thereof, or by any other person which may affect the species under consideration.

(5) The commission shall issue regulations containing a list of all species of wildlife and wild plants normally occurring within this state which it determines, in accordance with subsections (1) through (4) of this section, to be endangered or threatened species and a list of all such species. Each list shall refer to the species contained therein by scientific and common name or names, if any, and shall specify with respect to each such species over what portion of its range it is endangered or threatened.

(6) Except with respect to species of wildlife or wild plants determined to be endangered or threatened pursuant to the Endangered Species Act, the commission shall, upon the petition of an interested person, conduct a review of any listed or unlisted species proposed to be removed from or added to the lists published pursuant to subsection (5) of this section, but only if the commission publishes a public notice that such person has presented substantial evidence which warrants such a review.

(7) Whenever any species of wildlife or wild plants is listed as a threatened species pursuant to subsection (5) of this section, the commission shall issue such regulations as are necessary to provide for the conservation of such species. The commission may prohibit, with respect to any threatened species of wildlife or wild plants, any act prohibited under subsection (8) or (9) of this section.

(8) With respect to any endangered species of wildlife, it shall be unlawful, except as provided in subsection (7) of this section, for any person subject to the jurisdiction of this state to:

(a) Export any such species from this state;

(b) Take any such species within this state;

(c) Possess, process, sell or offer for sale, deliver, carry, transport, or ship, by any means whatsoever except as a common or contract motor carrier under the jurisdiction of the Public Service Commission or the Interstate Commerce Commission, any such species; or

(d) Violate any regulation pertaining to the conservation of such species or to any threatened species of wildlife listed pursuant to this section and promulgated by the commission pursuant to the Nongame and Endangered Species Conservation Act.

(9) With respect to any endangered species of wild plants, it shall be unlawful, except as provided in subsection (7) of this section, for any person subject to the jurisdiction of this state to:

(a) Export any such species from this state;

(b) Possess, process, sell or offer for sale, deliver, carry, transport, or ship, by any means whatsoever, any such species; or

(c) Violate any regulation pertaining to such species or to any threatened species of wild plants listed pursuant to this section and promulgated by the commission pursuant to the act.

(10) Any endangered species of wildlife or wild plants which enters this state from another state or from a point outside the territorial limits of the United States and which is being transported to a point within or beyond this state may be so entered and transported without restriction in accordance with the terms of any federal permit or permit issued under the laws or regulations of another state.

(11) The commission may permit any act otherwise prohibited by subsection (8) of this section for scientific purposes or to enhance the propagation or survival of the affected species.

(12) Any law, regulation, or ordinance of any political subdivision of this state which applies with respect to the taking, importation, exportation, possession, sale or offer for sale, processing, delivery, carrying, transportation other than under the jurisdiction of the Public Service Commission, or shipment of species determined to be endangered or threatened species pursuant to the Nongame and Endangered Species Conservation Act shall be void to the extent that it may effectively (a) permit that which is prohibited by the act or by any regulation which implements the act or (b) prohibit that which is authorized pursuant to an exemption or permit provided for in the act or in any regulation which implements the act. The Nongame and Endangered Species Conservation Act shall not otherwise be construed to void any law, regulation, or ordinance of any political subdivision of this state which is intended to conserve wildlife or wild plants.

37-807 Commission; establish conservation programs; agreements authorized; Governor and state agencies; duties; public meeting; when required.

(1) The commission shall establish such programs, including acquisition of land or aquatic habitat or interests therein, as are necessary for the conservation of nongame, threatened, or endangered species of wildlife or wild plants. Acquisition for the purposes of this subsection shall not include the power to obtain by eminent domain.

(2) In carrying out programs authorized by this section, the commission shall consult with other states having a common interest in particular species of nongame, endangered, or threatened species of wildlife or wild plants and may enter into agreements with federal agencies, other states, political subdivisions of this state, or private persons with respect to programs designed to conserve such species including, when appropriate, agreements for administration and management of any area established under this section or utilized for conservation of such species.

(3) The Governor shall review other programs administered by him or her and utilize such programs in furtherance of the purposes of the Nongame and Endangered Species Conservation Act. All other state agencies shall, in consultation with and with the assistance of the commission, utilize their authorities in furtherance of the purposes of the act by carrying out programs for the conservation of endangered species and threatened species listed pursuant to section 37-806 and by taking such action necessary to insure that actions authorized, funded, or carried out by them do not jeopardize the continued existence of such endangered or threatened species or result in the destruction or modification of habitat of such species which is determined by the commission to be critical. For purposes of this subsection, state agency means any department, agency, board, bureau, or commission of the state or any corporation whose primary function is to act as, and while acting as, an instrumentality or agency of the state, except that state agency shall not include a natural resources district or any other political subdivision.

(4) The commission shall provide notice and hold a public meeting prior to the implementation of conservation programs designed to reestablish threatened, endangered, or extirpated species of wildlife or wild plants through the release of animals or plants to the wild. The purpose of holding such a public meeting shall be to inform the public of programs requiring the release to the wild of such wildlife or wild plants and to solicit public input and opinion. The commission shall set a date and time for the public meeting to be held at a site convenient to the proposed release area and shall publish a notice of such meeting in a legal newspaper published in or of general circulation in the county or counties where the proposed release is to take place. The notice shall be published at least twenty days prior to the meeting and shall set forth the purpose, date, time, and place of the meeting.

As the Department of Water Resources is a state agency within the meaning of the Nongame and Endangered Species Act, the issuance of a permit through its director would qualify as an "action" taken by a state agency. Therefore, the director may not issue permits which would jeopardize the continued existence of an endangered or threatened species, or result in the destruction or modification of their habitat. *Central Platte NRD v. City of Fremont*, 250 Neb. 252, 549 N.W.2d 112 (1996).

Before authorizing a diversion project, the Department of Water Resources must consult with the Game and Parks Com-

mission and must obtain an opinion as to whether the project will jeopardize threatened or endangered species. However, the opinion, merely by being issued, does not impose affirmative requirements upon an application. *Central Platte NRD v. State of Wyoming*, 245 Neb. 439, 513 N.W.2d 847 (1994).

If the director of the state Department of Water Resources, pursuant to subsection (3) of this section, considers and relies on the opinion of the state Game and Parks Commission in making his or her decision about diversion of unappropriated waters, the applicant is affected by the statute and thus is

entitled to challenge its constitutionality. This section does not violate the provisions of Article XV, sections 4, 5, and 6, of the Constitution of Nebraska. In re Applications A-10627 et al., 243 Neb. 419, 499 N.W.2d 548 (1993).

This section places two separate and distinct duties upon state departments and agencies, that of consultation with the Game

and Parks Commission and, once done, an independent duty to insure that the actions they take or authorize do not jeopardize the continued existence of an endangered species or its habitat. Both the Department of Water Resources and the various natural resources districts are state departments or agencies within the meaning of this act. Little Blue N.R.D. v. Lower Platte North N.R.D., 210 Neb. 862, 317 N.W.2d 726 (1982).

Any such officer or agent may, without a warrant, arrest any person whom he or she has probable cause to believe is violating, in his or her presence or view, the act or any regulation or permit provided for in the act. Any officer or agent who has made an arrest of a person in connection with any such violation may search such person or business records at the time of arrest and may seize any wildlife, wild plants, records, or property taken or used in connection with any such violation.

(4) Equipment other than equipment owned or operated by any common or contract motor carrier under the jurisdiction of the Public Service Commission or the Interstate Commerce Commission, wildlife, wild plants, records, or other contraband seized under the provisions of subsection (3) of this section shall be held by an officer or agent of the commission pending disposition of court proceedings, and thereafter be forfeited to this state for destruction or disposition as the commission may deem appropriate. This section shall not be construed to permit the possession, transportation by a person other than a common or contract motor carrier under the jurisdiction of the Public Service Commission or the Interstate Commerce Commission, exportation, processing, sale or offer for sale, or shipment within this state of species of wildlife or wild plants determined, pursuant to the Endangered Species Act, to be an endangered or threatened species, except as permitted by subsection (11) of section 37-806.

Federal funds advanced to the State of Nebraska through grants-in-aid under the provisions of Public Law 88-578, 88th Congress, for approved projects shall be deposited in the Land and Water Conservation Fund and used for financing such approved projects. Federal funds paid to the state in reimbursement of expenditures previously made by the state or its political subdivisions shall be returned to the fund from which such expenditures were made, except that after July 1, 1971, no funds shall be expended for projects which will not qualify for federal reimbursement under the provisions of Public Law 88-578, 88th Congress. (1) Pursuant to the National Trails System Act, 16 U.S.C. 1241 et seq., the Game and Parks Commission is hereby authorized and directed to accept as a gift, when and if offered, from any present or future owner the entire right-of-way of the Chicago and Northwestern Railroad which lies between milepost 83.3 and milepost 404.5 in Nebraska. In the event a portion of the right-of-way continues in actual rail service, the commission is authorized and directed to accept as a gift the remaining section. So long as the integrity of the right-of-way as an interim recreational trail and for future rail use is not disturbed, the commission is authorized to lease and to grant easement rights on the right-of-way. All revenue collected from such leases shall be remitted to the State Treasurer for credit to the Cowboy Trail Fund and shall be used for the development and maintenance of the Cowboy Trail. The commission shall hold

the right-of-way for interim trail use as a state recreational trail, to preserve wildlife habitat, and to provide a conservation, communications, utilities, and transportation corridor and for other uses approved by the commission and allowed by the National Trails System Act. The commission shall keep in good repair all crossings over the trail in accordance with its legal obligations, including all the grading, bridges, ditches, and culverts that may be necessary for such crossings within the right-of-way.

(2) The right-of-way may be accepted without any further legislative action or approval of the Governor but only if the State of Nebraska is indemnified in a manner satisfactory to the commission against the costs of remedial action and environmental cleanup for conditions arising prior to conveyance to the state and the title is free and clear of all liens and mortgage or deed of trust encumbrances.

(3) The commission may accept money from any public or private source for gift-acceptance costs, for the development and maintenance of the trail, or for other uses consistent with the purposes stated in this section. The commission may use funds available in the Trail Development Assistance Fund to carry out this section as provided in section 37-1003. Any money from the Trail Development Assistance Fund so used shall be transferred to the Cowboy Trail Fund.

(4) The commission may enter into an agreement with any public entity at any time for the development and maintenance of the trail pursuant to this section.

(5) This section shall not be construed to limit the power of eminent domain of the state or its agencies or of any political subdivision.

(2) The State Treasurer shall transfer one hundred thousand dollars from the Nebraska Youth Conservation Program Fund on March 31, 2016, to the Cowboy Trail Fund. The Game and Parks Commission shall use money transferred to the Cowboy Trail Fund under this subsection for the development of undeveloped portions of the Cowboy Trail but shall not expend any money under this subsection unless the amount is matched both by a public entity and by a private entity for each expenditure.

(1) Pursuant to the National Trails System Act, and with the consent of the Governor pursuant to section 37-303, the Game and Parks Commission may acquire by gift, devise, or purchase all or any part of a railroad right-of-way in the state proposed to be abandoned for interim trail use. The commission, pursuant to the National Trails System Act, shall hold the right-of-way for one or more of the following uses:

- (a) To provide a state recreational trail open to the public;
- (b) To preserve wildlife habitat;
- (c) To provide a conservation, communications, utilities, and transportation corridor; and
- (d) Other uses approved by the commission.

(2) The right-of-way may be acquired only if the State of Nebraska is reasonably protected in a manner satisfactory to the commission for the costs of remedial action and environmental cleanup for conditions arising prior to conveyance to the state and the title is free and clear of all liens and encumbrances.

(3) The commission may use funds available by gift, appropriation, the Trail Development Assistance Fund, and other appropriate cash funds for uses consistent with those stated in this section and sections 37-303 and 37-1003.

(4) As long as the integrity of the right-of-way as an interim recreational trail and future rail use is not disturbed, the commission may lease and grant easement rights on the right-of-way. Any lease or use allowed shall be subject to all prescriptions of the National Trails System Act. All revenue collected from such leases shall be remitted to the State Treasurer for credit to the Trail Development Assistance Fund pursuant to sections 37-1003 and 37-1004.

(5) The commission shall continue to allow all crossings across the right-of-way acquired at the time of acquisition on substantially the same terms and conditions as they existed prior to acquisition unless otherwise agreed between the commission and interested parties.

(6) The acquisition of the right-of-way shall be subject to the restoration of rail service. If a proposal for the operation of a railroad is approved by the federal Surface Transportation Board, the right-of-way shall be sold for the market value of the land and improvements and conditioned upon (a) the operation of a railroad along the right-of-way, (b) the grant of an easement to the commission for recreational trail use adjacent to the railroad if such use is feasible, and (c) the return of the right-of-way to the commission if rail service is discontinued.

37-1002 Legislative findings.

The Legislature finds that the abandonment of railroad rights-of-way in this state provides a unique opportunity to develop a statewide system of recreational trails by which citizens of Nebraska may enjoy the greenways or linear parks that will result and that such trails may act to preserve wildlife habitat and create conservation corridors. The Legislature further finds that it is in the public's interest to develop abandoned railroad rights-of-way and to do so through fostering public and private cooperation.

If a certificate of title has not previously been issued for the motorboat in this state, the application shall be accompanied by a certificate of number from this state, a manufacturer's or importer's certificate, a duly certified copy thereof, proof of purchase from a governmental agency or political subdivision, a certificate of title from another state, or a court order issued by a court of record, a manufacturer's certificate of origin, or an assigned registration certificate, if the motorboat was brought into this state from a state which does not have a certificate of title law. If he or she is satisfied that the applicant is the owner of the motorboat and that the application is in the proper form, the county treasurer shall issue a certificate of title over his or her signature and sealed with his or her seal.

(4) In the case of the sale of a motorboat, the certificate of title shall be obtained in the name of the purchaser upon application signed by the purchaser, except that for titles to be held by husband and wife, applications may be accepted by the county treasurer upon the signature of either spouse as a signature for himself or herself and as an agent for his or her spouse.

(5) In all cases of transfers of motorboats, the application for a certificate of title shall be filed within thirty days after the delivery of the motorboat. A dealer need not apply for a certificate of title for a motorboat in stock or acquired for stock purposes, but upon transfer of a motorboat in stock or acquired for stock purposes, the dealer shall give the transferee a reassignment of the certificate of title on the motorboat or an assignment of a manufacturer's or importer's certificate. 37-1282 Department of Motor Vehicles; implement electronic title and lien system for motorboats; security interest; financing instruments; provisions applicable; priority; notation of liens; cancellation.

(1) The Department of Motor Vehicles shall implement an electronic title and lien system for motorboats no later than January 1, 2011. The Director of Motor Vehicles shall designate the date for the implementation of the system. Beginning on the implementation date, the holder of a security interest, trust receipt, conditional sales contract, or similar instrument regarding a motorboat may file a lien electronically as prescribed by the department. Beginning on the implementation date, upon receipt of an application for a certificate of title for a motorboat, any lien filed electronically shall become part of the electronic certificate of title record created by the county treasurer or department maintained on the electronic title and lien system. Beginning on the implementation date, if an application for a certificate of title indicates that there is a lien or encumbrance on a motorboat or if a lien or notice of lien has been filed electronically, the department shall retain an electronic certificate of title record and shall note and cancel such liens electronically on the system. The department shall provide access to the electronic certificate of title records for motorboat dealers and lienholders who participate in the system by a method determined by the director.

(2) The provisions of article 9, Uniform Commercial Code, shall not be construed to apply to or to permit or require the deposit, filing, or other record whatsoever of a security agreement, conveyance intended to operate as a mortgage, trust receipt, conditional sales contract, or similar instrument or any copy of the same covering a motorboat. Any mortgage, conveyance intended to operate as a security agreement as provided by article 9, Uniform Commercial Code, trust receipt, conditional sales contract, or other similar instrument covering a motorboat, if such instrument is accompanied by delivery of such manufacturer's or importer's certificate and followed by actual and continued possession of same by the holder of the instrument or, in the case of a certificate of title, if a notation of same has been made electronically as prescribed in subsection (1) of this section or by the county treasurer or the department on the face of the certificate of title or on the electronic certificate of title record, shall be valid as against the creditors of the debtor, whether armed with process or not, and subsequent purchasers, secured parties, and other lienholders or claimants, but otherwise shall not be valid against them, except that during any period in which a motorboat is inventory, as defined in section 9-102, Uniform Commercial Code, held for sale by a person or corporation that is in the business of selling motorboats, the filing provisions of article 9, Uniform Commercial Code, as applied to inventory, shall apply to a security interest in the motorboat created by such person or corporation as debtor without the notation of lien on the instrument of title. A buyer at retail from a dealer of any motorboat in the ordinary course of business shall take the motorboat free of any security interest.

(3) All liens, security agreements, and encumbrances noted upon a certificate of title or an electronic certificate of title record and all liens noted electronically as prescribed in subsection (1) of this section shall take priority according to the order of time in which the same are noted on the certificate of title by the county treasurer or the department. Exposure for sale of any motorboat by the owner thereof with the knowledge or with the knowledge and consent of the holder of any lien, security agreement, or encumbrance on the motorboat shall not render the same void or ineffective as against the creditors of the owner or holder of subsequent liens, security agreements, or encumbrances upon the motorboat.

(4) Upon presentation of a security agreement, trust receipt, conditional sales contract, or similar instrument to the county treasurer or department together with the certificate of title and the fee prescribed by section 37-1287, the holder of such instrument may have a notation of the lien made on the face of the certificate of title. The owner of a motorboat may present a valid out-of-state certificate of title issued to such owner for such motorboat with a notation of lien on such certificate of title and the prescribed fee to the county treasurer or department and have the notation of lien made on the new certificate of title issued pursuant to section 37-1278 without presenting a copy of the lien instrument. The county treasurer or the department shall enter the notation and the date thereof over the signature of the person making the notation and the seal of office. If noted by a county treasurer, he or she shall on that day notify the department which shall note the lien on its records. The county treasurer or the department shall also indicate by appropriate notation and on such instrument itself the fact that the lien has been noted on the certificate of title.

(5) The county treasurer or the department, upon receipt of a lien instrument duly signed by the owner in the manner prescribed by law governing such lien

instruments together with the fee prescribed for notation of lien, shall notify the first lienholder to deliver to the county treasurer or the department, within fifteen days from the date of notice, the certificate of title to permit notation of such other lien and, after notation of such other lien, the county treasurer or the department shall deliver the certificate of title to the first lienholder. The holder of a certificate of title who refuses to deliver a certificate of title to the county treasurer or the department for the purpose of showing such other lien on the certificate of title within fifteen days from the date when notified to do so shall be liable for damages to such other lienholder for the amount of damages such other lienholder suffered by reason of the holder of the certificate of title refusing to permit the showing of such lien on the certificate of title.

(6) Beginning on the implementation date of the electronic title and lien system, upon receipt of a subsequent lien instrument duly signed by the owner in the manner prescribed by law governing such lien instruments or a notice of lien filed electronically, together with an application for notation of the subsequent lien, the fee prescribed in section 37-1287, and, if a printed certificate of title exists, the presentation of the certificate of title, the county treasurer or department shall make notation of such other lien. If the certificate of title is not an electronic certificate of title record, the county treasurer or department, upon receipt of a lien instrument duly signed by the owner in the manner prescribed by law governing such lien instruments together with the fee prescribed for notation of lien, shall notify the first lienholder to deliver to the county treasurer or department, within fifteen days after the date of notice, the certificate of title to permit notation of such other lien. After such notation of lien, the lien shall become part of the electronic certificate of title record created by the county treasurer or department which is maintained on the electronic title and lien system. The holder of a certificate of title who refuses to deliver a certificate of title to the county treasurer or department for the purpose of noting such other lien on such certificate of title within fifteen days after the date when notified to do so shall be liable for damages to such other lienholder for the amount of damages such other lienholder suffered by reason of the holder of the certificate of title refusing to permit the noting of such lien on the certificate of title.

(7) When the lien is discharged, the holder shall, within fifteen days after payment is received, note a cancellation of the lien on the face of the certificate of title over his, her, or its signature and deliver the certificate of title to the county treasurer or the department which shall note the cancellation of the lien on the face of the certificate of title and on the records of the office. If delivered to a county treasurer, he or she shall on that day notify the department which shall note the cancellation on its records. The county treasurer or the department shall then return the certificate of title to the owner or as otherwise directed by the owner. The cancellation of the lien shall be noted on the certificate of title without charge. For an electronic certificate of title record, the lienholder shall, within fifteen days after payment is received when such lien is discharged, notify the department electronically or provide written notice of such lien release, in a manner prescribed by the department, to the county treasurer or department. The department shall note the cancellation of lien and, if no other liens exist, issue the certificate of title to the owner or as otherwise directed by the owner or lienholder. If the holder of the certificate of title cannot locate a lienholder, a lien may be discharged ten years after the date of filing by presenting proof that thirty days have passed since the mailing

of a written notice by certified mail, return receipt requested, to the last-known address of the lienholder.

Only an affidavit by the person or agent of the person to whom possession of the motorboat has so passed, setting forth facts entitling him or her to such possession and ownership, together with a copy of the journal entry, court order, or instrument upon which such claim of possession and ownership is founded shall be considered satisfactory proof of ownership and right of possession, except that if the applicant cannot produce such proof of ownership, he or she may submit to the department such evidence as he or she may have and the department may thereupon, if it finds the evidence sufficient, issue the certificate of title or authorize any county treasurer to issue a certificate of title, as the case may be. “Grossly immoral” and “dishonorable” conduct under subdivision (2) of this section contemplates conduct that shows that a person guilty of it either is intellectually or morally incompetent to practice the profession or morally incompetent to practice the profession or has committed an act or acts of a nature likely to jeopardize the interest of the public; it does not authorize revocation for trivial reasons or for a mere breach of the generally accepted ethics of the profession. *Poor v. State*, 266 Neb. 183, 663 N.W.2d 109 (2003).

Pursuant to subsection (5)(d) of this section (subdivision (6)(d) of section 38-178), a district court is correct in concluding that a record lacks the quantum of evidence necessary to support a reasonable inference that a physician was grossly incompetent in treatment of a patient when: Experts testified that they would have found other procedures preferable, assessed the situation more thoroughly, or acted earlier in the course of treatment; experts agreed that the physician’s actions were not contrary to the indications and information he or she had received at the time; and positive assessments of the physician’s basic skill level were not contradicted by any evidence in the record. Pursuant to subsection (5)(d) of this section (subdivision (6)(d) of section 38-178), the term “gross incompetence” connotes such an extreme deficiency on the part of a physician in the basic knowledge and skill necessary for diagnosis and treatment that one may reasonably question the physician’s ability to practice medicine at the threshold level of professional competence. *Langvardt v. (1) If the department determines that a complaint will not be investigated, the department shall notify the complainant of such determination. At the request of the complainant, the appropriate board may review the complaint and provide its recommendation to the department on whether the complaint merits investigation.

(2) The department shall notify the credential holder that a complaint has been filed and that an investigation will be conducted except when the department determines that such notice may prejudice an investigation.

38-1,105 Investigations; department; progress reports to appropriate board; board review; board; powers and duties; review by Attorney General; meetings in closed session.

(1) The department shall advise the appropriate board on the progress of investigations. If requested by the complainant, the identity of the complainant shall not be released to the board.

(2) When the department determines that an investigation is complete, the department shall consult with the board to obtain its recommendation for submission to the Attorney General. In making a recommendation, the board may review all investigative reports and have full access to the investigational file of the department and any previous investigational information in the files of the department on the credential holder that may be relevant to the investigation, except that (a) reports or other documents of any law enforcement agency provided to the department shall not be available for board review except to the extent such law enforcement agency gives permission for release

to the board and (b) reports provided by any other agency or public or private entity, which reports are confidential in that agency's or entity's possession and are provided with the express expectation that the report will not be disclosed, may be withheld from board review.

(3) The recommendation of the board shall be made part of the completed investigational report of the department and submitted to the Attorney General. The recommendation of the board shall include, but not be limited to:

(a) The specific violations of any statute, rule, or regulation that the board finds substantiated based upon the investigation;

(b) Matters which the board believes require additional investigation; and

(c) The disposition or possible dispositions that the board believes appropriate under the circumstances.

(5) All meetings of the boards or between a board and staff of the department or the Attorney General on investigatory matters shall be held in closed session, including the voting of the board on any matter pertaining to the investigation or recommendation.

(1) Reports under sections 38-1,129 to 38-1,136, complaints, and investigational records of the department shall not be public records, shall not be subject to subpoena or discovery, and shall be inadmissible in evidence in any legal proceeding of any kind or character except a contested case before the department. Such reports, complaints, or records shall be a public record if made part of the record of a contested case before the department. No person, including, but not limited to, department employees and members of a board, having access to such reports, complaints, or investigational records shall disclose such information in violation of this section, except that the department may exchange such information with law enforcement and other state licensing agencies as necessary and appropriate in the discharge of the department's duties and only under circumstances to ensure against unauthorized access to such information. Violation of this subsection is a Class I misdemeanor.

(2) Investigational records, reports, and files pertaining to an application for a credential shall not be a public record until action is taken to grant or deny the application and may be withheld from disclosure thereafter under section 84-712.05.

(3) The identity of any person making a report, providing information leading to the making of a report, or otherwise providing information to the department, a board, or the Attorney General included in such reports, complaints, or

investigational records shall be confidential whether or not the record of the investigation becomes a public record.

Effective date July 21, 2016.

The evidentiary privilege under this section belongs to the Department of Health and Human Services, not the credential holder, and is limited to protecting the department's incident reports, complaints, and investigatory records when they are not included in a contested hearing. It does not preclude discovery of information available independent of the department's investigation. *Stetson v. Silverman*, 278 Neb. 389, 770 N.W.2d 632 (2009).

38-1,107 Violations; department; Attorney General; powers and duties; applicability of section.

(1) Except as provided in subsection (2) of this section, the department shall provide the Attorney General with a copy of all complaints it receives and advise the Attorney General of investigations it makes which may involve any possible violation of statutes or rules and regulations by a credential holder. The Attorney General shall then determine which, if any, statutes, rules, or regulations the credential holder has violated and the appropriate legal action to take. The Attorney General may (a) elect to file a petition under section 38-186 or not to file a petition, (b) negotiate a voluntary surrender or voluntary limitation pursuant to section 38-1,109, or (c) in cases involving a minor or insubstantial violation, refer the matter to the appropriate board for the opportunity to resolve the matter by recommending to the Attorney General that he or she enter into an assurance of compliance with the credential holder in lieu of filing a petition. An assurance of compliance shall not constitute discipline against a credential holder.

(2) This section does not apply to the following professions or businesses: Asbestos abatement, inspection, project design, and training; lead-based paint abatement, inspection, project design, and training; medical radiography; radon detection, measurement, and mitigation; water system operation; and constructing or decommissioning water wells and installing water well pumps and pumping equipment.

38-1,108 Referral to board; assurance of compliance; recommendation.

Upon referral of a matter under section 38-1,107 by the Attorney General, the board may:

(1) Advise the Attorney General on the content of an agreement to serve as the basis of an assurance of compliance. The Attorney General may contact the credential holder to reach, by voluntary agreement, an assurance of compliance. The assurance shall include a statement of the statute, rule, or regulation in question, a description of the conduct that would violate such statute, rule, or regulation, the assurance of the credential holder that he or she will not engage in such conduct, and acknowledgment by the credential holder that violation of the assurance constitutes unprofessional conduct. Such assurance shall be signed by the credential holder and shall become a part of the public record of the credential holder. The credential holder shall not be required to admit to any violation of the law, and the assurance shall not be construed as such an admission; or

(2) Recommend that the Attorney General file a petition under section 38-186.

38-1,109 Credential holder; voluntarily surrender or limit credential; department; powers; written order of director; violation of terms and conditions; effect.

(1) A credential holder may submit to the department an offer to voluntarily surrender or limit any credential issued by the department pursuant to the Uniform Credentialing Act. Any such offer may be made to surrender or limit the credential permanently, for an indefinite period of time, or for a specific or definite period of time. The offer shall be made in writing and shall include (a) the reason for the offer of voluntary surrender or limitation, (b) whether the offer is for a permanent, indefinite, or definite period of time, and (c) any terms and conditions that the credential holder wishes to have the department consider and apply to the voluntary surrender or limitation of the credential.

(2) The department may accept an offer of voluntary surrender or limitation of a credential (a) based on an offer made by the credential holder on his or her own volition, (b) based on an offer made with the agreement of the Attorney General for cases brought under section 38-1,107 or the legal counsel of the department for cases brought under sections 38-1,119 to 38-1,123 to resolve a pending disciplinary matter, (c) in lieu of filing a petition for disciplinary action, or (d) in response to a notice of disciplinary action.

(3) The department may reject an offer of voluntary surrender of a credential under circumstances which include, but are not limited to, when such credential (a) is under investigation, (b) has a disciplinary action pending but a disposition has not been rendered, or (c) has had a disciplinary action taken against it.

(4) In all instances, the decision shall be issued in the form of a written order by the director. The order shall be issued within thirty days after receipt of the offer of voluntary surrender or limitation and shall specify (a) whether the department accepts or rejects the offer of voluntary surrender and (b)(i) the terms and conditions under which the voluntary surrender is accepted or (ii) the basis for a rejection of an offer of voluntary surrender. The terms and conditions governing the acceptance of a voluntary surrender shall include, but not be limited to, the duration of the surrender, whether the credential holder may apply to have the credential reinstated, and any terms and conditions for any such reinstatement.

(5) A limitation may be placed upon the right of the credential holder to practice a profession or operate a business to such extent, for such time, and under such conditions as imposed by the director.

(6) Violation of any of the terms and conditions of a voluntary surrender or limitation by the credential holder shall be due cause for the refusal of renewal of the credential, for the suspension or revocation of the credential, or for refusal to restore the credential.

38-1,110 Complaint alleging dependence or disability; director; investigation; report; review by board; finding; effect.

(1) When the department has received a complaint or report by any person or any report has been made to the director by the Licensee Assistance Program under section 38-175 alleging that an applicant for a credential or a person credentialed to practice any profession is suffering from abuse of, dependence on, or active addiction to alcohol, any controlled substance, or any mind-altering substance that impairs the ability to practice the profession or illness, deterioration, or disability that impairs the ability to practice the profession, the director shall investigate such complaint to determine if any reasonable cause exists to question the qualification of the applicant or credential holder to practice or to continue to practice such profession.

(2) If the director on the basis of such investigation or, in the absence of such complaint, upon the basis of his or her own independent knowledge finds that reasonable cause exists to question the qualification of the applicant or credential holder to practice such profession because of abuse of, dependence on, or active addiction to alcohol, any controlled substance, or any mind-altering substance that impairs the ability to practice the profession or illness, deterioration, or disability that impairs the ability to practice the profession, the director shall report such finding and evidence supporting it to the appropriate board.

(3) If such board agrees that reasonable cause exists to question the qualification of such applicant or credential holder, the board shall appoint a committee of three qualified physicians or other qualified professionals to examine the applicant or credential holder and to report their findings and conclusions to the board. The cost of the examination shall be treated as a base cost of credentialing under section 38-152. The board shall then consider the findings and the conclusions of the physicians or other qualified professionals and any other evidence or material which may be submitted to that board by the applicant or credential holder, by the director, or by any other person and shall then determine if the applicant or credential holder is qualified to practice or to continue to practice such profession in the State of Nebraska.

(4) If such board finds the applicant or credential holder to be not qualified to practice or to continue to practice such profession because of abuse of, dependence on, or active addiction to alcohol, any controlled substance, or any mind-altering substance that impairs the ability to practice the profession or illness, deterioration, or disability that impairs the ability to practice the profession, the board shall so certify that fact to the director with a recommendation for the denial, refusal of renewal, limitation, suspension, or revocation of such credential. The director shall thereupon deny, refuse renewal of, suspend, or revoke the credential or limit the ability of the credential holder to practice such profession in the state in such manner and to such extent as the director determines to be necessary for the protection of the public.

The cost of the examination or evaluation shall be paid by the applicant or credential holder.

(2) Upon such finding the director, notwithstanding the provision of any other statute, shall issue, return, or reinstate such credential or remove any limitation on such credential if the applicant or credential holder is otherwise qualified as determined by the appropriate board to practice or to continue in the practice of the profession.

Such hearing shall be conducted in accordance with the Administrative Procedure Act. 38-1002 Legislative findings.

The Legislature finds that: (1) A great number of Nebraska citizens regularly demand and receive cosmetology, nail technology, esthetics, electrology, and body art services; (2) the practices of cosmetology, nail technology, esthetics, electrology, and body art involve the use of implements and chemicals that, if used or applied improperly, can be hazardous to human health and safety; (3) inadequate sanitation in the practice of cosmetology, nail technology, esthetics, electrology, or body art can encourage the spread of contagious diseases, infections, and infestations to the detriment of the health and safety of the public; (4) the knowledge of proper sanitation techniques and the proper use of implements and chemicals can best be gained by rigorous and extensive training in cosmetology, nail technology, and esthetics at institutions operated exclusively for such purposes; (5) the need of the public to be served by well-trained persons and the need of cosmetology, nail technology, and esthetics students to receive an appropriate education can best be met through the enactment of standards for the approval of schools of cosmetology, nail technology schools, and schools of esthetics; (6) the effectiveness of cosmetology, nail technology, esthetics, or electrology training and the competency to practice can best be demonstrated by the passage of an impartially administered examination before a person is permitted to practice; (7) continuing competency can best be demonstrated by participation in continuing competency activities; (8) the establishment and maintenance of a safe environment in places where cosmetology, nail technology, esthetics, electrology, or body art is practiced can best be ensured through the establishment of operating and sanitary requirements for the safe and sanitary operation of such places; (9) the protection of the health and safety of its citizens is a principal concern and duty of the State of Nebraska; and (10) the reasonable regulation and limitation of a field of practice or occupation for the purpose of protecting the health and safety of the public is a legitimate and justified exercise of the police power of the state.

It is the intent of the Legislature in enacting the Emergency Medical Services Practice Act to (1) effectuate the delivery of quality out-of-hospital emergency medical care in the state, (2) eliminate duplication of statutory requirements, (3) merge the former boards responsible for regulating ambulance services and emergency medical care, (4) replace the former law regulating providers of and services delivering emergency medical care, (5) provide for the appropriate licensure of persons providing out-of-hospital medical care and licensure of organizations providing emergency medical services, (6) provide for the establishment of educational requirements and permitted practices for persons providing out-of-hospital emergency medical care, (7) provide a system for regulation of out-of-hospital emergency medical care which encourages out-of-hospital emergency care providers and emergency medical services to provide the highest degree of care which they are capable of providing, and (8) provide a flexible system for the regulation of out-of-hospital emergency care providers and emergency medical services that protects public health and safety.

38-1203 Legislative findings.

The Legislature finds:

(1) That out-of-hospital emergency medical care is a primary and essential health care service and that the presence of an adequately equipped ambulance and trained out-of-hospital emergency care providers may be the difference between life and death or permanent disability to those persons in Nebraska making use of such services in an emergency;

(2) That effective delivery of out-of-hospital emergency medical care may be assisted by a program of training and licensure of out-of-hospital emergency care providers and licensure of emergency medical services in accordance with rules and regulations adopted by the board;

(3) That the Emergency Medical Services Practice Act is essential to aid in advancing the quality of care being provided by out-of-hospital emergency care providers and by emergency medical services and the provision of effective, practical, and economical delivery of out-of-hospital emergency medical care in the State of Nebraska;

(4) That the services to be delivered by out-of-hospital emergency care providers are complex and demanding and that training and other requirements appropriate for delivery of the services must be constantly reviewed and updated; and

(5) That the enactment of a regulatory system that can respond to changing needs of patients and out-of-hospital emergency care providers and emergency medical services is in the best interests of the citizens of Nebraska.

38-1425 Deceased persons; funeral and disposition arrangements; liability.

(1) Any person signing a funeral service agreement, a cremation authorization form, or any other authorization for disposition shall be deemed to warrant the truthfulness of any facts set forth in such agreement, form, or authorization, including the identity of the decedent whose remains are to be buried, cremated, or otherwise disposed of and the person's right of disposition. A funeral establishment, cemetery, or crematory authority shall have the right to rely on such agreement, form, or authorization and shall have the authority to carry out the instructions of the person or persons whom the funeral establishment, cemetery, or crematory authority reasonably believes holds the right of disposition. No funeral establishment, cemetery, or crematory authority shall have the responsibility to contact or to independently investigate the existence of any next-of-kin or relative of the decedent. If there is more than one person in a class equal in priority and the funeral establishment, cemetery, or crematory authority has no knowledge of any objection by other members of such class, the funeral establishment, cemetery, or crematory authority shall be entitled to

rely on and act according to the instructions of the first such person in the class to make funeral and disposition arrangements so long as no other person in such class provides written notice of his or her objections to the funeral establishment, cemetery, or crematory authority, as the case may be.

(2) The liability for the reasonable cost of the final disposition of the remains of the decedent devolves jointly and severally upon all kin of the decedent in the same degree of kindred into which the right of disposition fell and upon the estate of the decedent and, in cases where a county board has the right to control disposition of the remains under subdivision (2)(j) of section 30-2223, upon the county in which the death occurred from funds available for such purpose.

(3) If the decedent died during active military service, as provided in 10 U.S.C. 1481 (a)(1) through (8), in any branch of the United States armed forces, United States reserve forces, or national guard, the person authorized by the decedent to direct disposition pursuant to section 564 of Public Law 109-163, as listed on the decedent's United States Department of Defense record of emergency data, DD Form 93, or its successor form, shall take priority over all other persons described in section 30-2223.

38-1426 Final disposition; instructions; remains of deceased person; disposition; liability.

(1) A decedent, prior to his or her death, may direct the preparation for the final disposition of his or her remains by written instructions as provided in sections 30-2223 and 38-1425. If such instructions are in a will or other written instrument, the decedent may direct that the whole or any part of such remains be given to a teaching institution, university, college, or legally licensed hospital, to the director, or to or for the use of any nonprofit blood bank, artery bank, eye bank, or other therapeutic service operated by any agency approved by the director under rules and regulations established by the director. The person or persons otherwise entitled to control the disposition of the remains under this section shall faithfully carry out the directions of the decedent.

(2) If such instructions are contained in a will or other written instrument, they shall be immediately carried out, regardless of the validity of the will in other respects or of the fact that the will may not be offered for or admitted to probate until a later date.

(3) This section shall be administered and construed to the end that such expressed instructions of any person shall be faithfully and promptly performed.

(4) A funeral director and embalmer, physician, or cemetery authority shall not be liable to any person or persons for carrying out such instructions of the decedent, and any teaching institution, university, college, or legally licensed hospital or the director shall not be liable to any person or persons for

accepting the remains of any deceased person under a will or other written instrument as set forth in this section.

Pursuant to any such written authorization, any structure or organ may be given to the director or to any other therapeutic service operated by any nonprofit agency approved by the director, including, but not limited to, a teaching institution, university, college, legally licensed hospital, nonprofit blood bank, nonprofit artery bank, nonprofit eye bank, or nationally recognized nonprofit hormone and pituitary program. The person or persons performing any autopsy shall do so within a reasonable time and without delay and shall not exceed the removal permission contained in such written authorization, and the remains shall not be significantly altered in external appearance nor shall any portion thereof be removed for purposes other than those expressly permitted in this section.

38-1802 Legislative findings.

(1) The Legislature finds that:

- (a) The unregulated practice of medical nutrition therapy can clearly harm or endanger the health, safety, and welfare of the public;
- (b) The public can reasonably be expected to benefit from an assurance of initial and continuing professional ability; and
- (c) The public cannot be effectively protected by a less cost-effective means than state regulation of the practice of medical nutrition therapy. The Legislature also finds that medical nutrition therapists must exercise independent judgment and that professional education, training, and experience are required to make such judgment.

(2) The Legislature further finds that the practice of medical nutrition therapy in the State of Nebraska is not sufficiently regulated for the protection of the health, safety, and welfare of the public. It declares that this is a matter of statewide concern and it shall be the policy of the State of Nebraska to promote high standards of professional performance by those persons representing themselves as licensed medical nutrition therapists.

38-2046 Physician assistants; legislative findings.

The Legislature finds that:

(1) In its concern with the geographic maldistribution of health care services in Nebraska it is essential to develop additional health personnel; and

(2) It is essential to encourage the more effective utilization of the skills of physicians by enabling them to delegate health care tasks to qualified physician assistants when such delegation is consistent with the patient's health and welfare.

It is the intent of the Legislature to encourage the utilization of such physician assistants by physicians.

38-2102 Legislative findings.

The Legislature finds that, because many mental health practitioners are not regulated in this state, anyone may offer mental health services by using an unrestricted title and that there is no means for identifying qualified practitioners, for enforcing professional standards, or for holding such practitioners accountable for their actions. Therefor the Legislature determines that, in the interest of consumer protection and for the protection of public health, safety, and welfare, individuals should be provided a means by which they can be assured that their selection of a mental health practitioner is based on sound criteria and that the activities of those persons who by any title may offer or deliver therapeutic mental health services should be regulated.

The purpose of licensing mental health practitioners is to provide for an omnibus title for such persons and to provide for associated certification of social workers, master social workers, professional counselors, and marriage and family therapists.

38-2218 Nursing; practices permitted.

The Nurse Practice Act confers no authority to practice medicine or surgery. The Nurse Practice Act does not prohibit:

(1) Home care provided by parents, foster parents, family, or friends if such person does not represent or hold himself or herself out to be a nurse or use any designation in connection with his or her name which tends to imply that he or she is licensed to practice under the act;

(2) Home care provided for compensation or gratuitously by a parent, foster parent, family member, or friend if such person is a licensed nurse and represents or holds himself or herself out to be a nurse and uses any designation in connection with his or her name which tends to imply that he or she is licensed to practice under the act;

(3) Christian Science nursing consistent with the theology of Christian Science provided by a Christian Science nurse who does not hold himself or herself out as a registered nurse or a licensed practical nurse;

(4) Auxiliary patient care services provided by persons carrying out duties under the direction of a licensed practitioner;

(8) Nursing services rendered by a student enrolled in an approved program of nursing when the services are a part of the student's course of study;

(9) The practice of nursing by any legally licensed nurse of another state who serves in the armed forces of the United States or the United States Public Health Service or who is employed by the United States Department of Veterans Affairs or other federal agencies, if the practice is limited to that service or employment; or

(2) Health maintenance activities are those activities which enable the minor child or adult to live in his or her home and community. Such activities are those specialized procedures, beyond activities of daily living, which the minor child or adult is unable to perform for himself or herself and which the attending physician or registered nurse determines can be safely performed in the home and community by a designated care aide as directed by a competent adult or caretaker.

(3) A competent adult is someone who has the capability and capacity to make an informed decision.

GENERAL HIGHWAY PROVISIONS

Section

- 39-101. Terms, defined.
- 39-102. Rules and regulations; promulgated by Department of Roads to promote public safety.
- 39-103. Department of Roads; rules and regulations; violation; penalty.

39-101 Terms, defined.

For purposes of Chapter 39, unless the context otherwise requires:

- (1) Alley means a highway intended to provide access to the rear or side of lots or buildings and not intended for the purpose of through vehicular traffic;
- (2) Divided highway means a highway with separated roadways for traffic in opposite directions;
- (3) Highway means the entire width between the boundary limits of any street, road, avenue, boulevard, or way which is publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel;
- (4) Intersection means the area embraced within the prolongation or connection of the lateral curb lines or, if there are no lateral curb lines, the lateral boundary lines of the roadways of two or more highways which join one another at, or approximately at, right angles or the area within which vehicles traveling upon different highways joining at any other angle may come in conflict. When a highway includes two roadways thirty feet or more apart, then every crossing of each roadway of such divided highway by an intersecting highway shall be regarded as a separate intersection. In the event such intersecting highway also includes two roadways thirty feet or more apart, then every crossing of two roadways of such highways shall be regarded as a separate intersection. The junction of an alley with a highway shall not constitute an intersection;
- (5) Mail means to deposit in the United States mail properly addressed and with postage prepaid;
- (6) Maintenance means the act, operation, or continuous process of repair, reconstruction, or preservation of the whole or any part of any highway, including surface, shoulders, roadsides, traffic control devices, structures, waterways, and drainage facilities, for the purpose of keeping it at or near or improving upon its original standard of usefulness and safety;

(7) Motor vehicle means every self-propelled land vehicle, not operated upon rails, except mopeds as defined in section 60-637, self-propelled chairs used by persons who are disabled, electric personal assistive mobility devices as defined in section 60-618.02, and bicycles as defined in section 60-611;

(8) Park or parking means the standing of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of and while actually engaged in loading or unloading merchandise or passengers;

(9) Pedestrian means any person afoot;

(10) Right-of-way means the right of one vehicle or pedestrian to proceed in a lawful manner in preference to another vehicle or pedestrian approaching under such circumstances of direction, speed, and proximity as to give rise to danger of collision unless one grants precedence to the other;

(11) Roadway means that portion of a highway improved, designed, or ordinarily used for vehicular travel, exclusive of the berm or shoulder. If a highway includes two or more separate roadways, the term roadway refers to any such roadway separately but not to all such roadways collectively;

(12) Shoulder means that part of the highway contiguous to the roadway and designed for the accommodation of stopped vehicles, for emergency use, and for lateral support of the base and surface courses of the roadway;

(13) Sidewalk means that portion of a highway between the curb lines, or the lateral lines of a roadway, and the adjacent property lines, intended for use by pedestrians;

(14) Traffic means pedestrians, ridden or herded animals, and vehicles and other conveyances either singly or together while using any highway for purposes of travel; and

(15) Vehicle means every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, except devices moved solely by human power, devices used exclusively upon stationary rails or tracks, electric personal assistive mobility devices as defined in section 60-618.02, and bicycles as defined in section 60-611.

The standard for determining whether a vehicle is "approaching" is whether or not the vehicle poses an immediate hazard; that is, whether the circumstances are such that there is a danger of collision if one vehicle does not grant precedence to the other. *Springer v. Bohling*, 259 Neb. 71, 607 N.W.2d 836 (2000).

The right-of-way does not include a right to encroach upon that half of the highway upon which cars coming from the opposite direction are entitled to travel. Generally, an unexcused vehicular encroachment on another's lane of traffic, such as driving to the left of the middle of a roadway, prevents acquisition of a right-of-way and precludes the unlawful encroachment from becoming a favored position in movement of traffic. *Krul v. Harless*, 222 Neb. 313, 383 N.W.2d 744 (1986).

A hospital driveway which is privately maintained and subject to use by patients, visitors, and others having legitimate business at the hospital is not a "highway," within the meaning of this section and, therefore, the rules of the road as set forth in sections 39-601 to 39-612,22 (now sections 60-601 to 60-6,377)

do not apply to its use. However, common law applicable to users of public ways does apply. *Bassinger v. Agnew*, 206 Neb. 1, 290 N.W.2d 793 (1980).

Vehicle on the right has the favored position but does not have an absolute right to proceed regardless of the circumstances. *Crink v. Northern Nat. Gas Co.*, 200 Neb. 460, 263 N.W.2d 857 (1978).

Intersection right-of-way is a qualified, not absolute, right to proceed, exercising due care, in a lawful manner in preference to an opposing vehicle. *Reese v. Mayer*, 198 Neb. 499, 253 N.W.2d 317 (1977).

Sidewalk is portion of street between curb lines, or lateral lines of roadway and adjacent property lines, intended for use by pedestrians. *Therkildsen v. Gottsch*, 194 Neb. 729, 235 N.W.2d 622 (1975).

Where highway includes two roadways thirty feet apart, each crossing thereof is a separate intersection. *Therkildsen v. Gottsch*, 194 Neb. 729, 235 N.W.2d 622 (1975).

(5) Protection and preservation of trees, shrubbery, plantings, buildings, structures, and all other things located upon any highway or any portion of the right-of-way of any highway by the department;

(6) Applications for the location of, and location of, private driveways, commercial approach roads, facilities, things, or appurtenances upon the right-of-way of state highways, including, but not limited to, procedures for applications for permits therefor and standards for the issuance or denial of such permits, based on highway traffic safety, and the foregoing may include reapplication for permits and applications for permits for existing facilities, and in any event, issuance of permits may also be conditioned upon approval of the design of such facilities;

(7) Outdoor advertising signs, displays, and devices in areas where the department is authorized by law to exercise such controls; and

(8) The Grade Crossing Protection Fund provided for in section 74-1317, including, but not limited to, authority for application, procedures on application, effect of application, procedures for and effect of granting such applications, and standards and specifications governing the type of control thereunder.

This section shall not amend or derogate any other grant of power or authority to the department to make or promulgate rules and regulations but shall be additional and supplementary thereto.

39-210 Sign panels; qualification of activities; minimum requirements; violation; effect.

To qualify to appear on a tourist-oriented directional sign panel, an activity shall be licensed and approved by the state and local agencies if required by law and be open to the public at least eight hours per day, five days per week, including Saturdays or Sundays, during the normal season of the activity, except that if the activity is a winery, the winery shall be open at least twenty hours per week. The activity, before qualifying to appear on a sign panel, shall provide to the Department of Roads assurance of its conformity with all applicable laws relating to discrimination based on race, creed, color, sex, national origin, ancestry, political affiliation, or religion. If the activity violates any of such laws, it shall lose its eligibility to appear on a tourist-oriented directional sign panel. In addition, the qualifying activity shall be required to remove any advertising device which was unlawfully erected or which is in violation of section 39-202, 39-203, 39-204, 39-205, 39-206, 39-215, 39-216, or 39-220, any rule or regulation of the department, or any federal rule or regulation relating to tourist-oriented directional sign panels. The tourist-oriented directional sign panels shall conform to the requirements of the Federal Beautification Act and the Manual on Uniform Traffic Control Devices as adopted pursuant to section 60-6,118.

39-212 Acquisition of interest in property; control of advertising outside of right-of-way; compensation; removal; costs; payment by department.

(1) The Department of Roads may acquire the interest in real or personal property necessary to exercise the power authorized by subdivision (2)(m) of section 39-1320 and to pay just compensation upon removal of the following outdoor advertising signs, displays, and devices, as well as just compensation for the disconnection and removal of electrical service to the same:

(a) Those lawfully erected or in existence prior to March 27, 1972, and not conforming to the provisions of sections 39-212 to 39-222 except as otherwise authorized by such sections; and

(b) Those lawfully erected after March 27, 1972, which become nonconforming after being erected.

(2) Such compensation for removal of such signs, displays, and devices is authorized to be paid only for the following:

(a) The taking from the owner of such sign, display, or device or of all right, title, leasehold, and interest in connection with such sign, display, or device, or both; and

(b) The taking from the owner of the real property on which the sign, display, or device is located of the right to erect and maintain such signs, displays, and devices thereon.

(3) In all instances where signs, displays, or devices which are served electrically are taken under subdivision (2)(a) of this section, the department shall pay just compensation to the supplier of electricity for supportable costs of disconnection and removal of such service to the nearest distribution line or, in the event such sign, display, or device is relocated, just compensation for removal of such service to the point of relocation.

Except for expenditures for the removal of nonconforming signs erected between April 16, 1982, and May 27, 1983, the department shall not be required to expend any funds under sections 39-212 to 39-222 and 39-1320 unless and until federal-aid matching funds are made available for this purpose.

39-213 Control of advertising outside of right-of-way; agreements authorized; commercial and industrial zones; provisions.

(1) In order that this state may qualify for the payments authorized in 23 U.S.C. 131(c) and (e), and to comply with the provisions of 23 U.S.C. 131 as revised and amended on October 22, 1965, by Public Law 89-285, the Department of Roads, for and in the name of the State of Nebraska, is authorized to enter into an agreement, or agreements, with the Secretary of Transportation of the United States, which agreement or agreements shall include provisions for regulation and control of the erection and maintenance of advertising signs, displays, and other advertising devices and may include, among other things, provisions for preservation of natural beauty, prevention of erosion, landscaping, reforestation, development of viewpoints for scenic attractions that are accessible to the public without charge, and the erection of markers, signs, or plaques, and development of areas in appreciation of sites of historical significance.

(2) It is the intention of the Legislature that the state shall be and is hereby empowered and directed to continue to qualify for and accept bonus payments pursuant to 23 U.S.C. 131(j) and subsequent amendments as amended in the Federal Aid Highway Acts of 1968 and 1970 for controlling outdoor advertising within the area adjacent to and within six hundred sixty feet of the edge of the right-of-way of the National System of Interstate and Defense Highways constructed upon any part of the right-of-way the entire width of which is acquired subsequent to July 1, 1956, and, to this end, to continue any agreements with, and make any new agreements with the Secretary of Transportation, to accomplish the same. Such agreement or agreements shall also provide for excluding from application of the national standards segments of the National System of Interstate and Defense Highways which traverse commercial or industrial zones within the boundaries of incorporated municipalities as they existed on September 21, 1959, wherein the use of real property adjacent to the National System of Interstate and Defense Highways is subject to municipal regulation or control, or which traverse other areas where the land use, as of September 21, 1959, is clearly established by state law as industrial or commercial.

(3) It is also the intention of the Legislature that the state shall comply with 23 U.S.C. 131, as revised and amended on October 22, 1965, by Public Law 89-285, in order that the state not be penalized by the provisions of subsection (b) thereof, and that the department shall be and is hereby empowered and directed to make rules and regulations in accord with the agreement between the department and the Department of Transportation dated October 29, 1968.

39-214 Control of advertising outside of right-of-way; adoption of rules and regulations by department; minimum requirements.

Whenever advertising rights are acquired by the department pursuant to subdivision (2)(m) of section 39-1320 or an agreement has been entered into as authorized by section 39-213, it shall be the duty of the Department of Roads to adopt and promulgate reasonable rules and regulations for the control of

outdoor advertising within the area specified in such subdivision, which rules and regulations shall have as their minimum requirements the provisions of 23 U.S.C. 131 and regulations adopted pursuant thereto, as amended on March 27, 1972.

39-215 Prohibition of advertising visible from main-traveled way; other signs permitted; where; criteria listed.

(1) Except as provided in sections 39-212 to 39-222, the erection or maintenance of any advertising sign, display, or device which is visible from the main-traveled way of the Highway Beautification Control System is prohibited. On-premise signs, directional and official signs, and notices as defined and controlled in the department's rules and regulations shall be permitted.

(2) Other signs controlled in accordance with the federal-state agreement shall be permitted, if conforming to sections 39-212 to 39-222, in the following areas:

(a) All zoned commercial or industrial areas within the boundaries of incorporated municipalities, as those boundaries existed on September 21, 1959, and all other areas where the land use as of September 21, 1959, was clearly established by law or ordinance as industrial or commercial in which outdoor advertising signs, displays, and devices may be visible from the main-traveled way of the National System of Interstate and Defense Highways, except that no such signs, displays, or devices shall be permitted in areas in which advertising control easements have been acquired;

(b) All zoned and unzoned commercial and industrial areas in which outdoor advertising signs, displays, and devices may be visible from the main-traveled way of those portions of the National System of Interstate and Defense Highways constructed upon right-of-way, any part of the width of which was acquired on or before July 1, 1956, except that no such signs, displays, or devices shall be permitted in areas in which advertising control easements have been acquired;

(c) All zoned and unzoned commercial and industrial areas in which outdoor advertising signs, displays, and devices may be visible from the main-traveled way of all portions of the Highway Beautification Control System other than the National System of Interstate and Defense Highways within the State of Nebraska, except that no such signs, displays, or devices shall be permitted in areas in which advertising control easements have been acquired. No signs shall be allowed in such areas along scenic byways except those permitted under section 39-218; and

(d) All signs, displays, or devices beyond six hundred sixty feet of the edge of the right-of-way of the Highway Beautification Control System and outside of urban areas which are visible from the main-traveled way are prohibited except those which are authorized to be erected by the Federal-Aid Highway Acts of

1965, 1970, and 1974 and those signs whose advertising message is only visible from a secondary road or street but not visible from the main-traveled way of the Highway Beautification Control System.

(3) In the areas described in subsection (2) of this section, advertising signs, displays, and devices shall be allowed to be erected in accordance with the following criteria:

(a) Whenever a bona fide state, county, or local zoning authority has made a determination of customary use, as to size, lighting, and spacing, such determination may be accepted in lieu of criteria established by regulation in the zoned commercial and industrial areas described in subsection (2) of this section within the geographical jurisdiction of such authority unless conflicting with laws not contained in this section or with the rules and regulations of the department; and

(b) In all other areas described in subsection (2) of this section, the following criteria shall apply:

(i) On-premise signs as defined and controlled in the department's rules and regulations shall be permitted;

(ii) Those signs referred to as being permitted in the October 1968 federal-state agreement shall be permitted when in conformity with the rules and regulations of the department;

(iii) Within the areas in which, according to sections 39-212 to 39-222, advertising signs will be permitted, such signs shall conform to standards and criteria as to height, width, spacing, and lighting as set forth in the rules and regulations of the department;

(iv) Nothing contained in such sections shall be construed to allow any person or persons, except the department, to erect signs within the right-of-way of any portion of the state highway system or, except the county, to erect official signs within the right-of-way of any portion of the county road system;

(v) Nothing contained in such sections shall be construed to prevent the department from acquiring easements for the control of outdoor advertising;

(vi) Nothing contained in such sections shall be construed to require the removal of signs in zoned and unzoned commercial and industrial areas, lawfully in existence on March 27, 1972, which signs may under such sections remain and continue in place even if nonconforming; and

(vii) The powers conferred by such sections are supplementary and additional powers, and nothing contained in such sections shall be deemed amendatory or in derogation of any other grant of power or authority to the department.

The change of the face of a sign to an electronic format did not constitute the erection of a new sign under this section. *State, Dept. of Roads v. World Diversified, Inc.*, 254 Neb. 307, 576 N.W.2d 198 (1998).

This section does not violate article III, section 18, of the Nebraska Constitution. The classification of on-premises signs and off-premises signs is a reasonable method of controlling the number of signs along the Interstate and bears a rational relationship to the goal of public health and safety, and to the legislative intent that the state comply with federal regulations concerning highway advertising. *State v. Popco, Inc.*, 247 Neb. 440, 528 N.W.2d 281 (1995).

The portion of this statute prohibiting the "erection or maintenance of any advertising sign, display, or device which is visible from the main-traveled way of the National System of Interstate and Defense Highways and the system of federal-aid primary roads of the State of Nebraska" is unconstitutionally vague. *State v. Houtwed*, 211 Neb. 681, 320 N.W.2d 97 (1982).

This section is unconstitutionally vague and therefore unenforceable in that it fails to provide any standards by which to calculate the meaning of the term "visible". Neither landowner or lessee nor the enforcing agency of the state can act upon such wording with the certainty otherwise required by the due process notion of fair notice of conduct which is proscribed. *State*

39-216 Control of advertising visible from main-traveled way; unlawful; when permitted; written lease and permit from Department of Roads.

39-217 Scenic byway designations.

(1) The Department of Roads may designate portions of the state highway system as a scenic byway when the highway corridor possesses unusual, exceptional, or distinctive scenic, historic, recreational, cultural, or archeological features. The department shall adopt and promulgate rules and regulations establishing the procedure and criteria to be utilized in making scenic byway designations.

(2) Any portion of a highway designated as a scenic byway which is located within the limits of any incorporated municipality shall not be designated as part of the scenic byway, except when such route possesses intrinsic scenic, historic, recreational, cultural, or archeological features which support designation of the route as a scenic byway.

39-220 Control of advertising visible from main-traveled way; permit; fee; rules and regulations; exceptions.

The Department of Roads may at its discretion require permits for advertising signs, displays, or devices which are placed or allowed to exist along or upon any interstate or primary highway or at any point visible from the main-traveled way, except for signs located within an area of fifty feet of any commercial or industrial building on the premises. Such permits shall be renewed biennially. Each sign shall bear on the side facing the highway the permit number in a readily observable place for inspection purposes from the highway right-of-way. The department is authorized to charge a fee to be not less than twenty-five cents or not to exceed fifteen dollars for each permit and renewal permit for each individual sign. The department shall promulgate rules and regulations establishing, and from time to time adjusting, the annual fees for the permits to cover the costs of administering sections 39-212 to 39-226 and may by rule and regulation provide exceptions from the payment of fees for signs advertising eleemosynary or nonprofit public service activities, signs designating historical sites, and farm and ranch directional signs. The department may revoke the permit for noncompliance reasons and remove the sign if, after thirty days' notification to the sign owner, the sign remains in noncompliance. Printed sale bills not exceeding two hundred sixteen square inches in size shall not require a permit if otherwise conforming.

Any person, firm, company, or corporation violating any of the provisions of sections 39-212 to 39-222 shall be guilty of a Class V misdemeanor. In addition to any other available remedies, the Director-State Engineer, for the Department of Roads and in the name of the State of Nebraska, may apply to the district court having jurisdiction for an injunction to force compliance with any of the provisions of such sections or rules and regulations promulgated there-

39-223 Governmental or quasi-governmental agency; removal of signs, displays, or devices along Highway Beautification Control System; exemption; petition.

Any community, board of county commissioners, municipality, county, city, a specific region or area of the state, or other governmental or quasi-governmental agency which is part of a specific economic area located along the Highway Beautification Control System of the State of Nebraska may petition the Department of Roads for an exemption from mandatory removal of any legal, nonconforming directional signs, displays, or devices as defined by 23 U.S.C. 131(o), which signs, displays, or devices were in existence on May 5, 1976.
